

WORKSHEET OUTPOST | Kindergarten Math

Choose a property to measure

OW-K-108 | Five questions

Success criteria
I can describe an object using words about its size or weight.

Name: _____ Date: _____

Read each problem or listen as someone reads it. Show your thinking with objects, pictures, words, or numbers.

1. You want to know which ribbon is longer. What will you measure?

2. You want to know which box is heavier. What will you compare?

3. You want to know which jug holds more water. What will you compare?

4. You want to know which tower is taller. What will you measure?

5. Write a problem like question 1 with new numbers or objects. Solve it and show your work.

You can point, speak, draw, or write. Adults can note any help they give.
